Community Development Strategy

Updated & Adopted on 12/2/15

Overview

Volunteers and paid staff serving as elected or appointed members of various boards and committees undertake Orange's governance, community development, and strategic planning efforts. The activities contained within this application for funding are consistent with the priorities and needs identified through several local and regional community assessment and strategic planning processes. This Community Development Strategy was reviewed and discussed at a public informational meeting held on 11/4/15 in the Orange Town Hall and broadcast on public access television. This strategy was then adopted at a Board of Selectmen's meeting held on 12/3/2014.

Community Planning Entities

Town residents have been involved in a variety of local and regional planning efforts to help clarify and coordinate the town's priorities. Needs assessments and community-based planning activities are conducted by the Board of Selectmen, Town Administrator, Community Development Administrative Assistant, Council on Aging, Cultural Council, Board of Health, Finance Committee, Fire Department, Highway & Sewer Department, Police Department, Planning Board, Library, Economic Development and Industrial Corporation, School Committees, and Water Commission. Various committees working under these municipal boards are also involved in needs identification and goal setting.

The Town is assisted in its planning and community development efforts by several regional organizations including the Franklin Regional Council of Governments (FRCOG), Franklin County Community Development Corporation (FCCDC), and the Franklin County Regional Housing and Redevelopment Authority (FCRHRA). The following agencies also assist the Town, providing guidance and funding to help meet community needs: the Massachusetts Executive Office of Environmental Affairs (EOEA), the Massachusetts Department of Housing and Community Development (DHCD), the Massachusetts Office of Business Development, the Executive Office of Transportation and Construction, the Economic Development Administration, the Massachusetts Emergency Management Agency, and the Massachusetts Department of Conservation Services.

Current boards and committees assisting the Town include; the ADA Handicapped Access Compliance Board, the Airport Commission, the Armory Commission, the Brownsfields Steering Committee, the Cable Compliance Committee, the Capital Improvement Committee, the Conservation Commission, the Council on Aging, the Economic Development and Industrial Corporation, the Finance Committee, the FRCOG Planning Board, the FRTA Advisory Board, the Historical Commission, the Mobile Rent Control Board, the Orange Cultural Council, the Riverfront Park Committee, the Town Hall Management Committee, and the Zoning Board of Appeals. A total of 128 area residents volunteer for these Boards.

Planning Processes and Documents

From Plan to Project: Franklin County MA, 2013: A collection of success stories from projects around the region that promote physical activity within our communities. This publication focused on the Riverfront Park and Boathouse in downtown Orange (produced by the FRCOG with funding by MassDOT and Mass in Motion).

Route 122 Scenic Byway Corridor Management Plan, 2011: The purpose of the plan is to recognize, interpret, preserve and promote the unique scenic, cultural, archeological, natural and recreational resources in the Byway corridor. The vision is to expand tourism, recreational, and economic opportunities along the Byway while educating people about the Byway and preserving its unique scenic qualities, natural resources, historic structures/places, industrial and other heritage resources and community character.

CARD District Slum and Blight Inventory, 2009: The Designation states that disrepair and a recognizable pattern of disinvestment have occurred in the CARD. It meets the Department of Housing and Community Development's definition of slum and blighted because more than 25% of the properties within the CARD have experienced physical deterioration of buildings or improvements; have abnormally low property values; and have known or suspected environmental contamination.

Orange Open Space and Recreation Plan, 2008: The purpose of the Orange Open Space and Recreation Plan (ORSP) is to identify the town's unique agricultural, historical, recreational, natural and scenic resources and to provide a framework for the town's future decisions regarding land conservation and development.

Town of Orange Master Plan, 2005: The Master Plan, created by the Orange Master Planning Committee and the Franklin Regional Council of Governments Planning Department in 2005, offers guidelines for open space and natural resources, economic development, housing (developed under Executive Order 418), pavement management, community facilities and services, and land use and zoning. The plan emphasizes community development that is balanced with the preservation of natural, historic, and scenic resources and the Town's character.

ADA Transition Plan, 2004: The Town of Orange updated the plan to achieve compliance with Title II of the Americans with Disabilities Act (ADA) for all municipal buildings within the Town and all Town Departments.

Economic Development Plan, 1996: A comprehensive EDP was created by staff of the Community Development Office, members of the Planning Board, and members of the Orange Revitalization Partnership in 1996. Priorities outlined in this plan include focusing on industrial and commercial growth to increase and strengthen the tax base; undertaking infrastructure improvements to improve water, sewer and road conditions in town; and maintaining consideration for rural quality of life factors when undertaking development in Orange.

Adopted Chapter 43D, Executrices Office of Housing and Economic Development: The town of Orange established three priority sites within the Commercial Area Redevelopment District (CARD) area: Putnam Hall Block, South Main Street Block and West River Street Block. Revision of zoning bylaws and subdivision regulations to promote residential and business growth in areas with adequate public infrastructure.

Capital Improvement Planning: Each year members of the Capital Planning Committee (including representatives of the Board of Selectmen, Finance Committee and at-large members appointed by the Moderator) meet to discuss capital needs and priorities for the current year. The Committee also identifies and prioritizes long-range capital needs for the next five years. Recommendations for capital planning, prioritization of needs and allocation of resources are recommended and discussed at Town Meeting.

Regional Plans

Sustainable Franklin County, 2013. The Franklin County's regional plan for sustainable development (RPSD) is a long term guide for Franklin County municipal governments, regional organizations, businesses, non-profits, and individuals (produced by the Franklin Regional Council of Governments with funding by the U.S. Department of Housing and Urban Development).

The Greater Franklin County Comprehensive Economic Development Strategy, 2011: The CEDS program is operated by the FRCOG and guides economic development activities throughout Franklin County and neighboring communities. The program is directed by a committee of 45 business and community leaders, including a representative from Orange.

Regional Transportation Plan, 2011: This plan, coordinated by the FRCOG with input from all 26 towns, promotes ways to develop transportation alternatives to the automobile, while at the same time supporting the improvement and more efficient use of traditional facilities.

Needs Assessment and Community Action Plan, 2009. Community Action of the Franklin, Hampshire, and North Quabbin Regions conducted this assessment to delineate specific community needs and action planning.

Local Natural Hazards Mitigation Plan, 2005. This planning document was produced by the Franklin Regional Council of Governments with a committee made up of various emergency and departmental managers and was accepted by the Town in August of 2005. The plan outlines a course of action to be followed by the Town in the event of any natural hazards or disasters.

Franklin County Regional Water Supply Study, 2003. This study assesses the short and long-term capacity of 17 community water supplies to support growth in the region and provides a region-wide context for water conservation (produced by the FRCOG with funding from MA EOEA).

North Quabbin Community Coalition reports. The commission has conducted numerous needs assessments, reports and recommendation for social services in the North Quabbin region. Violence prevention, family and parenting support, adult education, programs for at-risk youth, and job training programs are all high priorities. The Coalition assisted the Town in an area-wide survey to determine social service needs and also completed a study of youth career development programs for at-risk youth aged 16 to 21, in "Pathways to Success by 21: Youth Strategic Action Plan".

Community Linking: A nine-town (Orange, Erving, New Salem, Wendell, Warwick, Athol, Phillipston, Royalston, and Petersham) collaborative effort to review the possibilities of sharing services and equipment.

Downtown Orange Target Area

The Downtown Orange Target Area, designated in 2008 is an 81-street neighborhood in the downtown commercial district of the Town of Orange. The area is a combination of two smaller residential areas and the downtown commercial area which mirrors the Priority Development areas through the Town's Chapter 43D Expedited Permitting Process. The boundaries are also consistent with a Wastewater Treatment Facilities Plan which was completed in 2000, and the 2010 Comprehensive Wastewater Management Plan which will further determine future use of and improvements to the wastewater system. Other planning efforts by the Town include a 2005 Infrastructure Master Plan of the Prospect/Summit/High streets area, a 2010 Infrastructure Master Plan of the Hayden/Prentiss 12-street neighborhood, and the Massachusetts Downtown Initiative Program. All have prioritized this target area's neighborhoods and the newly expanded Downtown Orange CARD District for housing rehabilitation, economic development, infrastructure improvements, and other community development initiatives.

Boundaries of the Downtown Orange Target Area are Hillside Terrace on the south; Cherry Street, Terrance Street, Briggs Street, and Walnut Hill Road on the west; Jones Street and East River Street to the Pine Crest Apartment complex on the east; and Clark Avenue on the north. The outer boundaries of the Target Areas are ½ mile from the downtown commercial district. There are approximately 4,000 residents in the Target Area (54% of the Town's population); 55% are LMI (DHCD - 2007 Census Tract LMI data).

The Target Area was identified initially as a result of studies done in 2000, which documented the area's failing sewer infrastructure. The Highway Department, Wastewater Treatment Facility Operator and Water Commissioners prioritized addressing the needs in this area because of 100-year old water mains, insufficient water flow capacity for fighting fires, poor drainage structures without deep sumps to collect sand and other contaminants, potential for downstream water contamination in the Town's watershed, and antiquated, disintegrating clay pipe sewer lines with major infiltration of groundwater. Sidewalks and roadways in the area have deteriorated beyond the point of simple repair and maintenance. Housing has been prioritized to address the neighborhood's deteriorating housing stock and a Sign and Façade Program has been initiated in the CARD District.

Downtown/Commercial Area Revitalization District (CARD) **Strategy**

The Town of Orange has a Downtown/Commercial Area (CARD) Strategy. In 2010, the boundaries of the CARD District were expanded to include Map 110/Lot 224 at 50 West River Street, Map 110/Lot 225 at 70 West River Street, Map 107/Lot 181 at West Orange Road, Map 108/Lot 54 at 60 Roche Avenue, Map 108/Lot 55 at Roche Avenue, and Map 108/Lot 59 at 131 West Main Street. The revised CARD District was approved at Annual Town Meeting on June 23, 2010 and by the Office of the Attorney General on June 29, 2010. The Orange Revitalization Partnership is the downtown organization that implements the CARD Strategy. The Strategy was formed by plans, reports, and studies as outlined above.

Strategic Action Plan

The planning processes described above have resulted in specific action plans that the Town will undertake over the next three to five years. Priorities, projects, resources and potential funding sources are described in detail in the relevant planning documents. Methods to meet some of the Town's specific goals are described in this proposal for funding and are summarized below:

Potential Resources

Orange will address its community needs and priorities using a variety of resources including:

- Local property taxes
- Volunteer labor and donated materials
- Community fundraising activities (bake sales, book sales, silent auctions, etc.)
- State aid through school and transportation programs, lottery and library programs
- Technical assistance and grants from regional organizations including Franklin County Community Development Corporation, Franklin County Council of Governments, Franklin Regional Housing and Redevelopment Authority, and Pioneer Valley Planning Commission.
- Grant and loan funding through the Massachusetts Department of Housing and Community Development, Massachusetts Department of Environmental Affairs, and other state agencies.
- Grant and loan funding through US Department of Agriculture and other federal agencies.

Smart Growth

The Town of Orange has adopted the Smart Growth agenda of the ten sustainable development principles created by the Massachusetts Office of Commonwealth Development. Where possible, the Town will include those principals in its development decisions. For example, two (2) current economic development projects support the sustainable development principles established by the State.

With the Riverfront Park Project, the Town is in the process of gradually redeveloping a blighted former Brownfield site in the downtown area to create an environmentally sensitive recreation area which will support recreation-based tourism and provide much needed access to the Millers River for residents. This project has been made possible through funding from a DHCD Ready Resource grant, a Massachusetts EOEA Urban Self Help grant, a DEP 319 grant for Low-Impact Development (LID) elements, DCR Recreation Trails funds, corporate and private donations.

The Town has supporting the redevelopment of the Former Workers Credit Union building, a vacant historic structure in the center of the downtown, into a cooperative food store. The Town has been able to help "Quabbin Harvest" apply for and obtain US Department of Agriculture funds and apply for net-zero facility funding. This re-engagement of a viable retail use within a vacant historic building has been an important step towards a more sustainable future for Orange.

The planning processes described above have resulted in specific action plans that the Town will undertake over the next five years. Priorities, projects, resources and potential funding sources are described in detail in the relevant planning documents. Methods to meet the Town's priority goals are described and summarized below:

TOWN OF ORANGE – PRIORITY PROJECT LIST

ID	*#*	*Loc*	*Project*	*Project Goals & Tasks*	*Potential Funding*	*Timeline*
SS	**1**	**TW**	Social Service Programs: Support for persons with disabilities, youth violence/bullying, domestic violence prevention, food assistance, elder self-sufficiency, job training, drug and alcohol abuse, homelessness prevention, GED classes, parenting education/support, job related transportation, foreclosure prevention, EIC, ABE classes, Literacy programs and training, job-related child care assistance, and financial counseling.	Education and Literacy as it relates to economic self-sufficiency. Work with local Social Service Agencies to provide the community's needs through a RFP process. Provide social service programs to town residents as prioritized in the 2010 town wide social service needs survey and the Community Action Needs Assessment and Community Action Plan 2008.	Private Funds, CDBG Funds	Ongoing
O	**2**	**DO**	Preserve existing affordable housing - Housing Rehabilitation & Weatherization and Energy Efficiency	Work with regional agencies and owners of affordable housing to improve quality, preserve affordability of existing affordable housing and weatherization and energy efficiency. Provide resources to assist low and moderate income residents in correcting code violations and weatherization in housing	CDBG, Community Action, USDA, GTLO	Ongoing
O	**3**	**TW**	Removal of Spot Blight	Demolition of abandoned and condemned residential structures	CDBG, State & Local Funds	Ongoing
ED	**4**	**DO**	Downtown Commercial Area Revitalization	Revitalization of the downtown commercial area through strategic investment into individual façade improvement loans/grants.	Private Funds, CDBG Funds	Ongoing
INF	**5**	**DO**	North Main Street Project	Reconstruction of 2,100-foot segment of North Main Street, including vehicle barrier railings at retaining walls, ADA accessible sidewalks, improvements to intersection and pedestrian crossing at Dexter Street	Ch. 90, State TIP Funds	2018
INF	**6**	**TW**	Bikeway Master Plan	Complete the Orange to Athol bikeway	Technical Assistance FRCOG & IIT, State Fund	2017
ED	**7**	**DO**	Downtown Sidewalk Handicapped Accessibility Project Study	Improve access to downtown businesses by making sidewalks and buildings handicapped accessible.	Federal and State Funds, Town funds	Ongoing
INF	**8**	**DO**	Millers Loop Trail – Rail Spur Trestle	Rehabilitation of existing rail trestle to create the loop trail in Downtown Orange	DCR Trails, MDI Funds, Private funding	2018
O	**9**	**NA**	Pavement Management Study	Use the results of pavement management analysis to help prioritize future road projects.	Chapter 90, Town Funds	2017
INF	**10**	**DO**	Downtown Pocket Park	Create a downtown park at vacant lot - 13 East Main Street	CDBG, Local Funds, PARC	2017
INF	**11**	**DO**	Hayden and Harrison Streets Infrastructure Project	Completion of infrastructure improvements on Hayden Street from East River Street to Blodgett Street, including water, sewer, sidewalks, drainage, and roadway.	Ch. 90, Sewer and Water Enterprise Funds, CDBG Funds	2018
INF	**12**	**DO**	Adams and Church Street Infrastructure Project	Infrastructure improvements including water, sewer, sidewalks, drainage, and roadway	Town Funds, 2016 CDBG, Chapter 90 Funds, Sewer and	2019
INF	**13**	**DO**	Prentiss, Dewey Conrad, King, East Myrtle, Blodgett, Burrill, Second and Cloukey Streets	Infrastructure improvements including water, sewer, sidewalks, drainage, and roadway	Town Funds, 2009 CDBG, Chapter 90 Funds, Sewer and Water enterprise funds	2020
PW	**14**	**DO**	Dexter Park/Fisher Hill Renovations or Consolidation	Expansion/consolidation of Elementary School – Feasibility Study	MSBA, Town debt	2018
PW	**15**	**DO**	Riverfront Park Project	Phase Three Gazebo & Overlook Deck and Phase IV Docks	DCR Rec Trails, MassWorks, Tech School, EDF and CDBG	2018-2020
ED	**16**	**DO**	Whitewater Park – Lower Millers River	Create a standing wave water park below the dam.	MDI Funds, Private funding	2016
ED	**17**	**TW**	Business Assistance	Assist Local Businesses with marketing, accounting assistance, and Business Plans	FCCDC Technical Assistance, State/Private	Ongoing
AIR	**18**	**NA**	Reconstruct Taxiway Delta	Reconstruct and mark Taxiway Delta	Conventional airport funding	2019
ED	**19**	**DO TW**	Downtown Business Promotion	Develop local business organization and promote the Town of Orange as a good place to live, work and do business; participate in Regional Small Business Loan fund for established and emerging businesses	CDBG, Program Income, MA Cultural Council, private funds	Ongoing
ED	**20**	**TW**	Industrial Park	Develop local business organization and promote the Town of Orange as a good place to live, work and do business; participate in Regional Small Business Loan fund for established and emerging businesses	CDBG, Program income, MA Cultural Council, private funds	Ongoing
