To see if the Town will vote to direct the Board of Selectmen to request that the General Court of the Commonwealth of Massachusetts enact legislation which would establish a post retirement insurance liability fund, or take any action relative thereto or thereon.

SECTION 1. Notwithstanding any general or special law to the contrary, the Town of Orange may appropriate funds in order to offset the anticipated cost of premium payments for or direct payments to be made to retired employees of the town and to any eligible surviving spouse of or dependents of deceased employees of the town. Any such amounts so appropriated shall be credited to a special fund to be known as the Post Retirement Insurance Liability Fund. Any interest or other income earned by such fund shall be added to and become a part of the fund. The Town of Orange Treasurer shall be the custodian of such fund and may invest the monies held in the fund in accordance with the rules and regulations of the public employees retirement administration commission and in accordance with any applicable general law. Any amounts appropriated to or expended from such fund shall be so appropriated or expended by a majority vote of the town which vote must be taken in accordance with an actuarial schedule developed by the town. The actuarial schedule must be designed to reduce to zero any unfunded liability attributable to premium payments for or direct payments to be made to retired employees of the town and to any eligible surviving spouse of or the dependents of deceased employees of the town. The Treasurer may employ any qualified bank, trust company, corporation, firm or person to provide advice on the investment of amounts held in the Post Retirement Insurance Liability Fund and to prepare any required actuarial study and may pay for any such advice or service from amounts held in the fund.

SECTION 2. This act shall take effect upon its passage

To see if the Town will vote to transfer the care, custody, management and control of "The Point" so-called at Lake Mattawa, more particular described in a plan of land entitled "Plan of Land in Orange, Massachusetts Prepared for the Water Department" dated November 1, 2006, prepared by Berry Engineering, Inc. to the Board of Selectmen for general municipal purposes including resale, as voted by the Water Commissioners at their meeting on July 23, 2007 or take any other action relative thereto or thereon.

ARTICLE 34:

Motion that the Town vote to accept Article 34 as printed.

(Recommended by Finance Committee)

Motion passed, unanimously.

ARTICLE 35: THE POINT AT LAKE MATTAWA

To see if the Town will vote to authorize the Board of Selectmen to convey at fair market value and to seek special legislation pursuant to Article 97 of the Massachusetts Constitution for permission for said conveyance by lot or otherwise, "The Point" so-called at Lake Mattawa, more particular described in a plan of land entitled "Plan of Land in Orange, Massachusetts Prepared for the Water Department" dated November 1, 2006, prepared by Berry Engineering, Inc., the proceeds from the sale shall be returned to the Water Department Enterprise Account minus any expenses related to the sale of the property or take any other action relative thereto or thereon.

ARTICLE 35:

Motion that the Town vote to accept Article 35 as printed.

(Recommended by Finance Committee)

Motion to amend the wording by changing the last sentence to read, the net proceeds from the sale after any expenses related to the sale of the property shall be equally divided between the Town of Orange and the Water Department Enterprise Account.

Amendment passed, not unanimously,

Motion to amend by changing the amendment to add after the word sale, the words: care, custody, management or control (the net proceeds from the sale after any expenses related to the sale, care, custody, management, or control of the property shall be equally divided between the Town of Orange and the Water Department Enterprise Account).

Motion to amend passed, not unanimously.

Motion as amended passed, not unanimously.

ARTICLE 36: THE POINT AT LAKE MATTAWA

To see if the Town will vote to authorize the Board of Selectmen to seek special legislation notwithstanding the provisions of M.G.L. c. 30B to convey by lot or otherwise, "The Point" so-called at Lake Mattawa, more particular described in a plan of land entitled "Plan of Land in Orange, Massachusetts Prepared for the Water Department" dated November 1, 2006, prepared by Berry Engineering, Inc. for fair market value to the current lease holders, or take any other action relative thereto or thereon.

ARTICLE 36:

Motion that the Town vote to accept Article 36 as printed.

(Recommended by Finance Committee)

Motion to amend by adding: providing that an advisory committee consisting of three individuals to be appointed by the Board of Selectmen shall be established to assist and advise the Board of Selectmen or their designee in drafting the special legislation, terms of sale of land, and other issues related to the disposition of the

property to ensure the protection of public health and safety as well as the interests of the residents of Orange.

Motion to move the question – motion passed, by required 2/3 vote.

Motion to amend passed, not unanimously.

Motion as amended passed, not unanimously.

ARTICLE 37: GALE HILLTOP FARM CONSERVATION

To see if the Town of Orange will vote to appropriate, and authorize the Treasurer with the approval of the Board of Selectmen to borrow and or transfer from available funds the sum of \$400,000, more or less, pursuant to Chapter 44, Section 7(3) of the General Laws, as amended, or any other enabling authority, to pay costs of acquiring for conservation and passive recreation purposes through negotiated purchase or otherwise, the value of a 69.5 acre conservation restriction in a 70.5 acre tract of land known as the Gale Hilltop Farm described in a deed conveyed to Mount Grace Land Conservation Trust, Inc located at 485 Tully Road and further identified as the property shown on Orange's Assessor's Map 205 Lot 4, including all incidental costs related thereto, that said conservation restriction be conveyed to the Town under the provisions of Massachusetts General Law, Chapter 40, Section 8C, and as it may hereafter be amended, and other Massachusetts statutes relating to conservation, to be managed and controlled by the Conservation Commission of the Town of Orange, and the Conservation Commission be authorized to file on behalf of the Town of Orange any and all applications for grants and/or reimbursements from The Commonwealth of Massachusetts deemed necessary under the Self-Help Act (Chapter 132A, Section 11) and/or any other state and/or federal programs, including those in aid of conservation land acquisition, and to receive and accept such grants or reimbursements for this purpose such that the town is reimbursed for the total project cost, and be authorized to accept conservation restrictions, enter into all agreements and execute any and all instruments including a Self-Help Program Grant Agreement with The Commonwealth of Massachusetts, which may contain restrictions and covenants, as may be necessary on behalf of the Town to effect said acquisition, or take any other action relative thereto or thereon.

ARTICLE 37:

Motion that the Town vote to Passover this article.

(Recommended by Finance Committee)

Motion passed, not unanimously.

ARTICLE 38: STARRY STARRY NIGHT

To see if the Town will vote to raise and appropriate or take from available funds, the sum of \$2,000.00 to help fund the Starry Starry Night Celebration in Orange on December 31, 2008, provided to the community through the sponsorship of the Orange Revitalization Partnership and the support of local businesses, individuals, and cultural councils; or take any other action relative thereto or thereon.

ARTICLE 38:

Motion that the Town vote to raise and appropriate the sum of \$2,000.00 to help fund the Starry Starry Night Celebration in Orange on December 31, 2008, provided to the community through the sponsorship of the Orange Revitalization Partnership and the support of local businesses, individuals, and cultural councils.

(Recommended by Finance Committee)

Motion passed, not unanimously.

ARTICLE 39: RIVER RAT RACE POLICE DETAIL

To see if the Town will vote to raise and appropriate or take from available funds, the sum of \$1,500.00 to help fund the River Rat Race Celebration in Orange for Police detail, coverage provided to the community through the sponsorship of the Athol Lions Club and the support of local businesses and individuals, or take any other action relative thereto or thereon.

ARTICLE 39:

Motion that the Town vote to raise and appropriate the sum of \$1,500.00 to help fund the River Rat Race Celebration in Orange for Police detail, coverage provided to the community through the sponsorship of the Athol Lions Club and the support of local businesses and individuals.

(Recommended by Finance Committee)

Motion passed, not unanimously.

ARTICLE 40: 200TH ANNIVERSARY CELEBRATION

To see if the Town will vote to raise and appropriate or transfer from available funds the sum of \$1,000.00 to help fund the 200TH Anniversary Celebration of the Town of Orange for the calendar year 2010, or take any other action relative thereto or thereon.

ARTICLE 40:

Motion that the Town vote to raise and appropriate the sum of \$1,000.00 to help fund the 200TH Anniversary Celebration of the Town of Orange for the calendar year 2010.

(Recommended by Finance Committee)

Motion passed, not unanimously.

ARTICLE 41: BUFFER ZONE BYLAW (PETITION)

To see if the Town will Vote to accept a Buffer Zoning Bylaw and further that no substantive changes to the numbering of the bylaw be permitted in order that it be in compliance with the numbering format of the Code of Orange as described below;

Introduction

The purpose of this Bylaw is to minimize any impact proposed work might have on a resource area and to preserve and exercise jurisdiction over protected resource areas and adjoining land areas in the Town of Orange, Massachusetts. Wetlands contribute to a number of public interests and are therefore protected by this Bylaw. The Bylaw includes and identifies additional interests not recognized by the Massachusetts Wetland Protection Act. These interests include but are not limited to; erosions and sedimentation control, groundwater levels, groundwater runoff, flooding, avoidance of water and soil pollution, protection of rare species, agriculture, aquaculture, and recreational values. Any permit issued under this Bylaw must therefore not adversely affect any of these additional public interests.

Purpose

The alteration of land immediately adjacent to a wetland invariably results in the alteration of the wetland itself. Wetland alterations observed during construction have been siltation, over-grading, and the deposit of construction debris. Alterations observed after construction include unregulated filling, and disposing of yard waste. Such alterations have in most instances resulted in increased run-off, siltation, and nutrient loading. Since the Town of Orange Massachusetts cannot allow unregulated alterations of the wetlands, strict buffer zone restrictions are necessary for all projects. In projects abutting the area of critical environmental concern the Town of Orange, Massachusetts may impose more severe restrictions than outlined here.

This Bylaw is intended to use the authority of the Town under the Home Rule Amendment of the Massachusetts Constitution and the Home Rule Statutes to protect additional resource areas, independent of, and to provide more stringent protection by the Town of Orange than that provided by M.G.L. Chapter 131, Section 40 (the Wetlands Protection Act, and the regulations issued there under, 310 CMR 10.00 (the Wetlands Protection Regulations). This section shall extend protection to vernal pools, isolated vegetated wetlands in excess of ½ acre, intermittent streams, and land subject to flooding. Under these Regulations Buffer Zones adjacent to protected wetland resources have additional protection not afforded under the Wetlands Protection Act.

Definitions

1. The Undisturbed Buffer Area (UBA) is defined as an area extending 25 feet from the Resource Area, with the exception of a vernal pool. The UBA line shall be established by calculating the UBA every 25 feet along the resource area at right angles to the resource area delineation line. Additionally the UBA shall be delineated using any points, which protrude, into the project site. The Orange

Conservation Commission reserves the right to revise the UBA delineation should the Commission feel that utilizing different points for calculation would result in a more restrictive UBA. The UBA extends for the entire buffer of a vernal pool.

2. No Build Area (NBA) is an area defined as between 25 and 75 feet from the edge of a resource area.

3. A Tree Filter Zone is defined as the area between 25 and 100 feet measured horizontally from the edge of the resource area. Tree cover is measured for the purpose of this section as the basal area of trees with a 6" diameter at 3 feet above ground level.

4. The Buffer Zone for a Vernal Pool or for a Pond Under 10,000 Square Feet of surface area shall extend 125 feet horizontally outward from the mean annual high water line defining the depression, or one-half of the distance between the mean annual high water line and any existing (house) foundation, whichever is smaller. In either case the Buffer Zone for vernal pools shall not extend over existing lawn, gardens, landscaped areas, or developed areas.

5. The Buffer Zone for Isolated Land Subject to Flooding shall extend 25 feet horizontally outward from the boundary of the resource area.

6. The Buffer Zone for All Other Resource Areas shall extend 100 feet horizontally from the boundary of the resource area.

7. Vernal Pools all seasonal ponds shall be considered vernal pools unless shown not to be according to the Commonwealth of Massachusetts Division of Fisheries and Wildlife.

8. Endangered Species shall include both plant and animal species both listed and non-listed.

Performance Standards

1. No work shall be conducted within the Undisturbed Buffer Area (UBA) with the exception of removal of debris, or maintenance / restoration work as instructed or approved by the Conservation Commission or its Agent. Such exceptions may be granted for planting and landscaping within this area. In the UBA no trees over six (6) inches in caliper at a height of three (3) feet above the existing ground shall be cut except for those associated with a storm-water management system or drainage basin located outside of the UBA.

2. In a No Build Area (NBA) no construction or removal of vegetation is allowed. Building construction prohibited in this area includes, but is not limited to, porches, decks, and sheds. .

3. In the tree filter zone no more than 50% of the tree cover can be removed. Tree cover is measured for the purpose of this section as the basal area of trees with a six (6) inch diameter at three (3) feet above ground level.

4. All underground recharge systems shall be tested by artificially discharging the amount of water that would be generated by the first inch of rainfall in the 100-year storm. The recharge systems would need to be qualified prior to the issuance of a Certificate of Compliance, and then re-tested every five (5) years. Re-testing will insure the systems have not deteriorated. This shall be required as an ongoing condition.
5. All existing underground recharge systems shall be tested as outlined above. The testing of all existing systems shall be qualified within the first 2 years (24 calendar months) after adoption, and re-tested every five (5) years.

Enforcement

Failure to follow this Bylaw may subject the violator to fines and / or restoration of disturbed area under Massachusetts General Law, Federal Law, and the Town of Orange and/or Orange Conservation Commission guidelines, policies, and Town of Orange Bylaws.

Plan Specifications

This section defines the specification requirements for the plans submitted with a Notice of Intent.

1. Scale of main plan. The main plan must be suitable for detailed study and measurement of the proposed work, not more than forty (40) feet to the inch. Existing and proposed contours at an interval of not more than two (2) feet should be shown. Each plan shall show both a numerical indications of the scale as well as a graphical scale.
2. Supplementary plans. More than a single plan may be necessary to clearly and legibly represent the relevant information. Supplementary maps particularly likely to be needed are total watershed including the site and off site areas draining into or over any part of the site, sub-watersheds, soil and cover. Where the information on such supplementary plans can be presented legibly on a reduced size plan, a scale of more than forty (40) feet per inch may be submitted.
3. Specific data required on plans. The following are minimum data requirements for all filings and drawings. Drawings failing to provide all applicable data from this list may cause the filing to be considered incomplete. The Commission may return incomplete filings and the twenty-one (21) day period for scheduling of the public hearing will be considered not to have started. The Commission may impose additional site-specific data requirements if it finds they are needed to evaluate the impact of the proposed project on the interests mentioned in the Bylaw. These requirements are in addition to those

requested in the guidelines issued from time to time by the Department of Environmental Protection, Wetland Division.

1. Title Block. The title block must be located at the lower right hand corner of the drawing. It must identify the project name, owners/agents name and address, map and lot number, sheet number and total number of sheets, scale and date of submission of the plan.
2. Revision Block. All drawings shall have a revision block located above the title block, with provisions for dates and explanations for all changes. Revision information shall be kept current and complete.
3. North Point. All drawings shall have an indication of true north on each page.
4. Scale Statement. The scale shall be shown both by a statement of scale and a graphical scale. If insets have a different scale than the main plan, this must be clearly indicated. If vertical and horizontal scales differ, this must be clearly indicated.
5. Identifying Information. The stamp and signature of a registered professional engineer responsible for the plan is required. When property line locations are material to the Commission's Deliberations, they must be attested to by a registered land surveyor. When wetland lines are shown, the name of the person making the delineation shall be included on the plan.
6. Notes and Legend. Notes shall be included giving the source of all information on the plan, including the names of any professional contributing data to the plan (e.g. wetlands botanist). The vertical datum and benchmarks used shall be clearly stated.
7. Legend. A legend shall show the meaning of all line types, and symbols used on the plan.
8. The Commission requires two (2) complete sets of plans, one of which is to be kept on file at the Orange Town Hall.

Endangered Species

The developer is required to make a full and complete survey of the proposed site for endangered plant and animal species. All endangered species are to be considered whether or not they are listed on the state list.

Effective Dates

All land lots existing or brought into existence on or after the date and time of adoption of this Article shall be subject to the buffer requirements of these regulations. Lots subject to any determination by the Orange Planning Board, including but not limited to zoning changes, or new subdivisions after adoption shall be subject to these regulations. In addition all projects requiring / obtaining zoning variances after adoption are subject to these regulations.

Severability

The invalidity of any section or provision of this By-Law shall not invalidate any other section or provision hereof. Nothing in the By-Law shall preclude the Board of Selectmen, or any other Town Commission, Committee, or Board from establishing conditions that are more stringent than this Article, or take any other action relative thereto or thereon.

ARTICLE 41:

Motion to accept the article as printed.

Motion to pass over the article – passed, not unanimously.

ARTICLE 42: OUTDOORS LIGHTING BYLAW (PETITION)

To see if the Town will Vote to accept an Outdoor Lighting Bylaw and further that no substantive changes to the numbering of the bylaw be permitted in order that it be in compliance with the numbering format of the Code of Orange as described below;

Sec. 1 OBJECTIVES

The regulation of outdoor lighting is intended to: enhance public safety and welfare by providing for adequate and appropriate outdoor lighting, provide for lighting that will complement the character of the town, reduce glare, minimize light trespass, and reduce the cost and waste of unnecessary energy consumption.

Sec. 2 APPLICABILITY, TERMINOLOGY

The requirements of this section shall apply to outdoor lighting on lots and parcels in all districts but shall not apply to: one and two family dwellings on lots on which they are the principal use, or street lighting, lights that control traffic or other lighting for public safety on streets and ways. When an existing outdoor lighting installation is being modified, extended, expanded, or added to, the entire outdoor lighting installation on the lot shall be subject to the requirements of this section.

Sec. 2.2 TERMINOLOGY

The following words, which are technical terms applying to lighting, which are set forth below, shall have the meaning indicated below.

COLOR RENDERING INDEX (CRI): A measurement of the amount of color shift that objects undergo when lighted by a light source as compared with the color of those same objects when seen under a reference light source of comparable color temperature. CRI values generally range from 0 to 100, where 100 represents incandescent light.

CUTOFF ANGLE: The angle formed by a line drawn from the direction of the direct light rays at the light source with respect to the vertical, beyond which no direct light is emitted.

DIRECT LIGHT: Light emitted from the lamp, off the reflector or reflector diffuser, or through the refractor or diffuser lens, of a luminaire.

FIXTURE: The assembly that houses a lamp or lamps, and which may include a housing, a mounting bracket or pole socket, a lamp holder, a ballast, a reflector or mirror, and/or a refractor, lens, or diffuser lens.

FULLY-SHIELDED LUMINAIRE: A lamp and fixture assembly designed with a cutoff angle of 90°, so that no direct light is emitted above a horizontal plane.

GLARE: Light emitted from a luminaire with an intensity great enough to produce annoyance, discomfort, or a reduction in a viewer's ability to see.

HEIGHT OF LUMINAIRE: The vertical distance from the finished grade of the ground directly below to the lowest direct light emitting part of the luminaire.

INDIRECT LIGHT: Direct light that has been reflected off other surfaces not part of the luminaire.

LAMP: The component of a luminaire that produces the actual light.

LIGHT TRESPASS: The shining of direct light produced by a luminaire beyond the boundaries of the lot or parcel on which it is located.

LUMEN: A measure of light energy generated by a light source. One foot candle is one lumen per square foot. For purposes of this By-Law, the lumen output shall be the initial lumen output of a lamp, as rated by the manufacturer.

LUMINAIRE: A complete lighting system, including a lamp or lamps and a fixture.

Sec. 3 LIGHTING PLAN

Wherever outside lighting is proposed, every application for a building permit, a special permit, a special permit with site plan review, a variance, or an electrical permit, shall be accompanied by a lighting plan which shall show: the location and type of any outdoor lighting luminaires, including the height of the luminaire; the luminaire manufacturer's specification data, including lumen output and photometric data showing cutoff angles; the type of lamp such as: metal halide, compact fluorescent, high pressure sodium; a photometric plan showing the intensity of illumination at ground level, expressed in foot candles; and that light trespass onto

any street or abutting lot will not occur. This may be demonstrated by manufacturer's data, cross section drawings, or other means.

Sec. 4 CONTROL OF GLARE AND LIGHT TRESPASS

4.1 Any luminaire with a lamp or lamps rated at a total of more than 2,000 lumens shall be of fully shielded design and shall not emit any direct light above a horizontal plane passing through the lowest part of the light emitting luminaire.

4.2 All luminaires, regardless of lumen rating, shall be equipped with whatever additional shielding, lenses, or cutoff devices are required to eliminate light trespass onto any street or abutting lot or parcel and to eliminate glare perceptible to persons on any street or abutting lot or parcel.

4.3 Paragraph 4.1, above, shall not apply to any luminaire intended solely to illuminate any freestanding sign or the walls of any building but such luminaire shall be shielded so that its direct light is confined to the surface of such sign or building.

Sec. 5 LAMPS

5.1 Lamp types shall be selected for optimum color rendering as measured by their color rendering index (CRI), as listed by the lamp manufacturer. Lamps with a color rendering index lower than 50 are not permitted. This paragraph shall not apply to temporary decorative lighting, which may include colored lamps, such as holiday lighting.

Sec. 6 HOURS OF OPERATION

6.1 Outdoor lighting shall not be illuminated between 11:00 p.m. and 6:00 a.m. with the following exceptions:
if the use is being operated, such as a business open to customers, or where employees are working or where an institution or place of public assembly is conducting an activity, normal illumination shall be allowed during the activity and for not more than one half hour after the activity ceases; low level lighting sufficient for the security of persons or property on the lot may be in operation between 11:00 p.m. and 6:00 am, provided the average illumination on the ground or on any vertical surface is not greater than 0.5 foot candles.

Sec. 7 SPECIAL PERMITS

The Special Permit granting authority of the Town of Orange Massachusetts may grant a special permit modifying the requirements of this Section, provided it determines that such modification is consistent with the objectives set forth in Sec. 1, in the following cases: where an applicant can demonstrate, by means of a history of

vandalism or other objective means, that an extraordinary need for security exists. Where an applicant can show that conditions hazardous to the public, such as steep embankments or stairs, may exist in traveled ways or areas. Where a minor change is proposed to an existing non-conforming lighting installation, such that it would be unreasonable to require replacement of the entire installation. Where it can be demonstrated that for reasons of the geometry of a lot, building, or structure, complete shielding of direct light is technically infeasible.

Sec. 8 Severability

The invalidity of any section or provision of this By-Law shall not invalidate any other section or provision hereof. Nothing in this By-Law shall preclude the Board of Selectmen, and/or any other Commission, Committee, or Board from establishing conditions that are more stringent than this By-Law, or take any other action relative thereto or thereon.

ARTICLE 42:

Motion to pass over this article

Motion passed, not unanimously.

ARTICLE 43: NOISE BYLAW (PETITION)

To see if the Town will Vote to accept a Noise Bylaw and further that no substantive changes to the numbering of the bylaw be permitted in order that it be in compliance with the numbering format of the Code of Orange as described below;

Sec. 1 Definitions.

Except as may be specified herein, acoustical terminology used throughout this By-Law is that approved as American National Standard Acoustical Terminology [ANSI S1.1-1994] by the American National Standards Institute (ANSI). The following words, phrases and terms as used in this By-Law shall have the meanings as indicated below:

(a) **BACKGROUND SOUND LEVEL** shall mean the sound level associated with a given environment, being a composite of sounds from all sources excluding the alleged offensive noise, at the location and approximate time at which a comparison with the alleged offensive noise is to be made.

(b) **CONSTRUCTION** shall mean those activities requiring a building permit, and shall also include any site preparation, cemetery burial and caretaking operations, seismic surveys, grading, assembly, erection, substantial repair, alteration, or similar

action, including demolition, for or of public or private rights-of-way, structures, utilities or similar property.

(c) The abbreviation dBA shall mean the A-weighted sound pressure level expressed in decibels and referenced to 20 micropascals.

(d) EMERGENCY VEHICLE shall mean any vehicle operated in an effort to protect, provide or restore public safety, including, but not limited to, ambulances, police vehicles and fire vehicles.

(e) EMERGENCY WORK shall mean any work performed in an effort to protect, provide or restore public safety, or work by private or public utilities when restoring utility service.

(f) ENFORCING PERSON shall mean any police officer of the Town or any other Town employee designated by the Selectmen for this purpose. For complaints under Section 4 an enforcing person shall also include any authorized employee of the Office of Community Development.

(g) IMPACT DEVICE shall mean a construction device in which or by which a hammer, meaning a moving mass of hard solid material, is mechanically by means of a working fluid or compressed air caused to repetitively impact upon and transmit kinetic energy to a tool. The tool may be included as a part of the device, as in the case of a moil on a paving breaker or the drill steel of a jackhammer, or it may be a mass to which the impact device is temporarily connected as in the case of a pile and pile driver. Examples of impact devices are pile drivers, paving breakers, power impact hammers, impact wrenches, riveters and stud drivers.

(h) INTRUDING NOISE shall mean the total sound level created, caused, maintained by, or originating from an alleged offensive source at a specified location while the alleged offensive source is in operation.

(i) L_{eq} , equivalent sound level, is the level of a constant sound which, in a given situation and time period, would convey the same sound energy as does the actual time-varying sound during the same period, as measured with a sound level meter measuring L_{eq} .

(j) PERSON shall mean a person, firm, association, co-partnership, joint venture, corporation or any entity recognized by applicable law, public or private in nature.

(k) RESIDENTIAL PROPERTY shall mean a parcel of real property which under the By-Law is in whole or in part in a Single Residence, General Residence or Apartment House or Senior Living or Residential.

(l) SOUND LEVEL shall mean the instantaneous A-weighted sound pressure level, in decibels, as measured with a sound level meter set to the “A” weighting scale, slow response.

(m) SOUND LEVEL METER shall mean an instrument meeting American National Standard Institute's Standard S1.4-1983 for Type 1 or Type 2 sound level meters or an instrument and the associated recording and analyzing equipment which will provide equivalent data.

Sec. 2 Designated Noise Zones.

The properties hereinafter described are hereby assigned to the following noise zones:

NOISE ZONE I: All residential properties and the grounds of any school, hospital or similar health care institution, house of worship or library while the same is in use, and any Cemetery or Open Space Subdistrict.

NOISE ZONE II: All other properties.

Sec. 3 Exterior Noise Standards.

It shall be unlawful for any person at any location within the area of the Town of Orange Massachusetts to create any loud noise, or to allow the creation of any noise, on property owned, leased, occupied or otherwise controlled by such person, which causes the sound level when measured on any other property to exceed the greater of:

- (a) The maximum allowable exterior sound level outlined in Table I; or
- (b) Five dB over the background sound level.

Table I. Maximum Allowable Exterior Sound Level

Noise Zone	Day Level	Night Level
	7:00 AM-10:00PM	10:01 PM-6:59 AM
1	55dBA	45dBA
2	65dBA	60dBA

If the intruding noise source is continuous and cannot reasonably be discontinued or stopped for a time period whereby the background sound level can be determined, the measured sound level obtained while the source is in operation shall be compared directly to the maximum allowable exterior sound level outlined in Table I.

Sec. 4 Construction Noise Standards.

(a) Noise associated with construction is permitted between 7:00 AM and 8:00 PM on weekdays and Saturdays provided the sound level from:

(1) non-impact devices does not exceed 70 dBA as measured over a time interval of 10 minutes with a sound level meter set to L_{eq} located on any other property, but at least 50 feet from the construction activity;

(2)(a) impact devices does not exceed 90 dBA as measured with a sound level meter set to slow response located on any other property, but at least 50 feet from the construction activity.

(b) Between the hours of 8:00 PM and 7:00 AM on weekdays and Saturday, and at any time on Sunday or a legal holiday, noise associated with construction, shall be limited by the standards of Section 3.

Sec. 5 Maintenance Noise Standards.

(a) Noise associated with maintenance is permitted between 7:00 AM and 8:00 PM on weekdays and Saturdays and between the hours of 9:00 AM and 8:00 PM on Sunday, provided the sound level does not exceed 80 dBA as measured with a sound level meter set to slow response on any other property, but at least 50 feet from the maintenance activity;

(b) If it is not possible to make an accurate sound level measurement at the specified distance of 50 feet, measurements made at an alternate distance can be used, if the level is re-calculated for an equivalent expected sound level at 50 feet. Calculations shall be made in accordance with established engineering practices for noise measurement and assessment, including those established or recommended by the USEPA.

(c) Between the hours of 8:00 PM and 7:00 AM on weekdays and Saturday, and between the hours of 8:00 PM and 9:00 AM on Sunday or a legal holiday, noise associated with maintenance, shall be limited by the standards of Section 3.

Sec. 6 Special Provisions.

Noise associated with the following activities shall be exempted from the provisions of this By-Law:

(a) Emergency work or emergency vehicles.

(b) The operation of any vehicular alarm, provided it terminates within 15 minutes of the initially recorded complaint.

(c) Activities, other than construction, conducted in public parks, public property and

playgrounds, and on public or private school grounds so long as authorized by the appropriate jurisdiction, including but not limited to school athletic and school entertainment events.

(d) Occasional outdoor gatherings, public dances, shows, and sporting and entertainment events provided said events are conducted pursuant to a permit or license issued by the appropriate jurisdiction relative to the staging of said events.

(e) Snow removal performed by snow blowers, snow throwers or snow plows when appropriately outfitted with a muffler.

(f) Any activity to the extent regulation thereof has been preempted by State or Federal Law.

Sec 7 Prima Facie Violation.

Any measured noise exceeding the sound level standards as specified in Sections 3, 4 and 5 shall be deemed to be prima facie evidence of a violation of the provisions of this By-Law.

Sec. 8 Penalties for Violations.

(a) Violations under this Bylaw, in the discretion of the enforcing person, may be enforced by non-criminal disposition as provided in Chapter 40, Section 21D of the General Laws (“Section 21D”).

(b) The penalty for a violation under Section 3 or 5 shall be \$25 for a first offense next after the first warning, \$100 for a second offense, \$200 for a third offense, and \$300 per offense, without limit, for each succeeding offense. Each day or part thereof shall constitute a separate offense.

(c) The penalty for a violation under Section 4 shall be \$50 for a first offense next after the first warning, \$100 for a second offense, \$300 for a third offense, and each succeeding offense. Each day or part thereof shall constitute a separate offense.

Additionally under Section 4, at the discretion of the enforcing person, all construction activities may be suspended following initial warning until the violation is cleared to the reasonable satisfaction of the enforcing person.

(d) An enforcing person taking cognizance of a violation of this Article or any rule or regulation adopted hereunder shall give the offender a written notice to appear before the clerk of the district court having jurisdiction thereof for the non-criminal disposition thereof in accordance with the provision of Section 21D. The provisions of Section 21D are incorporated by this reference.

Sec. 9 Manner of Enforcement.

(a) Violations of this Article shall be prosecuted in the same manner as other

violations of the Orange General By-Laws provided, however, that in the event of an initial violation of the provision of this Article, a written notice shall be given the alleged violator, which specifies the time by which the condition shall be corrected. No complaint or further action shall be taken in the event the cause of the violation has been removed or fully-corrected within the time period specified in the written notice.

(b) In the event the alleged violator cannot be located in order to serve the notice of intention to prosecute, the notice as required herein shall be deemed to be given upon mailing such notice by registered or certified mail to the alleged violator at his last known address or at the place where the violation occurred in which event the specified time period for abating the violation shall commence at the date of the day following the mailing of such notice. Subsequent violations of the same offense shall result in the immediate filing of a complaint.

Sec 10 Severability

The invalidity of any section or provision of this By-Law shall not invalidate any other section or provision hereof. Nothing in the By-Law shall preclude the Board of Selectmen, or any other Town Commission, Committee, or Board from establishing conditions that are more stringent than the existing By-Law.

ARTICLE 8: **WATER USE RESTRICTION BYLAW**

To see if the Town will vote to adopt the Water use Restriction Bylaw by the Water Department voted by the Board of Water Commissioners October 16, 2008, or take any other action relative thereto or thereon.

Section 1 Authority

This bylaw is adopted by the Town under its police powers to protect public health and welfare and its powers under M.G.L. c.40, §21 et seq, and implements the Town's authority to regulate water use pursuant to M.G.L. c.41, §69B. This bylaw also implements the Town's authority under M.G.L. c.40, §41A, conditioned upon a declaration of water supply emergency issued by the Department of Environmental Protection.

Section 2 Purpose

The purpose of this bylaw is to protect, preserve and maintain the public health, safety and welfare whenever there is in force a State of Water Supply Conservation or State of Water Supply Emergency by providing for enforcement of any duly imposed restrictions, requirements, provisions or conditions imposed by the Town or by the Department of Environmental Protection.

Section 3 Definitions

Person shall mean any individual, corporation trust, partnership or association, or other entity.

State of Water Supply Emergency shall mean a State of Water Supply Emergency declared by the Department of Environmental Protection under M.G.L. c.21G. §15-17.

State of Water Supply Conservation shall mean a State of Water Supply Conservation declared by the Town pursuant to Section 4 of this bylaw.

Water Users or Water Consumers shall mean all public and private users of the Town's public water system, irrespective of any person's responsibility for billing purposes for water used at any particular facility.

Section 4 Declaration of a State of Water Supply Conservation

The Town, through its Board of Water Commissioners, may declare a State of Water Supply Conservation upon a determination by a majority vote of the Board that a shortage of water exists and conservation measures are appropriate to

ensure an adequate supply of water to all water consumers. Public notice of a State of Water Conservation shall be given under Section 6 of this bylaw before it may be enforced.

Section 5 Restricted Water Uses

A declaration of a State of Water Supply Conservation shall include one or more of the following restrictions, conditions, or requirements limiting the use of water as necessary to protect the water supply. The applicable restrictions, condition or requirements shall be included in the public notice required under Section 6.

- a. Odd/Even Day Outdoor Watering Outdoor watering by water users with odd numbered addresses is restricted to odd numbered days. Outdoor watering by water users with even numbered addresses is restricted to even numbered days.
- b. Outdoor Watering Ban Outdoor watering is prohibited.
- c. Outdoor Watering Hours Outdoor watering is permitted only during daily periods of low demand, to be specified in the declaration of a State of Water Supply Conservation and public notice thereof.
- d. Filling Swimming Pools Filling of swimming pools is prohibited.
- e. Automatic Sprinkler Use The use of automatic sprinkler systems is prohibited.

Section 6 Public Notification of a State of Water Supply Conservation; Notification of DEP

Notification of any provision, restriction, requirement or condition imposed by the Town as part of a State of Water Supply Conservation shall be published in a newspaper of general circulation within the Town, or by such other means reasonably calculated to reach and inform all users of water of the State of Water Supply Conservation. Any restrictions imposed under Section 5 shall not be effective until such notification is provided. Notification of the State of Water Supply Conservation shall also be simultaneously provided to the Massachusetts Department of Environmental Protection.

Section 7 Termination of a State of Water Supply Conservation; Notice

A State of Water Supply Conservation may be terminated by a majority vote of the Board of Water Commissioners, upon a determination that the water supply shortage no longer exists.

Public notification of the termination of a State of Water Supply Conservation shall be given in the same manner required by Section 6.

Section 8 State of Water Emergency; Compliance with DEP Orders
Upon notification to the public that a declaration of a State of Water Supply Emergency has been issued by the Department of Environmental Protection, no person shall violate any provision, restriction, requirement, condition of any order approved or issued by the Department intended to bring about an end to the State of Emergency.

Section 9 Penalties
Any person violating this bylaw shall be liable to the Town of Orange Water Department in the amount of \$50.00 for the first violation and \$100 for each subsequent violation which shall inure to the Town for such uses as the Board of Water Commissioners may direct. Fines shall be recovered by indictment, or through the collection process, or on complaint before the District Court, or by non-criminal disposition in accordance with section 21D of Chapter 40 of the General Laws. Each day of violation shall constitute a separate offense.

Section 10 Enforcement
This bylaw will be enforced by the Orange Water Department and the Orange Police Department.

Section 11 Severability
This invalidity of any portion or provision of this bylaw shall not invalidate any other portion or provision thereof.
